Revival to Resilience

*“..... is used to treat gastroesophageal reflux disease (GERD) and other gastrointestinal disorders involving acid reflux and motility issues.....”*

## Impact of Esomeprazole 40mg & Domperidone 30mg on Health Outcomes

### Clinical Benefits

- A systematic review and meta-analysis of randomized controlled trials indicated that combining domperidone with proton pump inhibitors (PPIs) like esomeprazole improved GERD symptoms more effectively than PPIs alone

Revival to Resilience

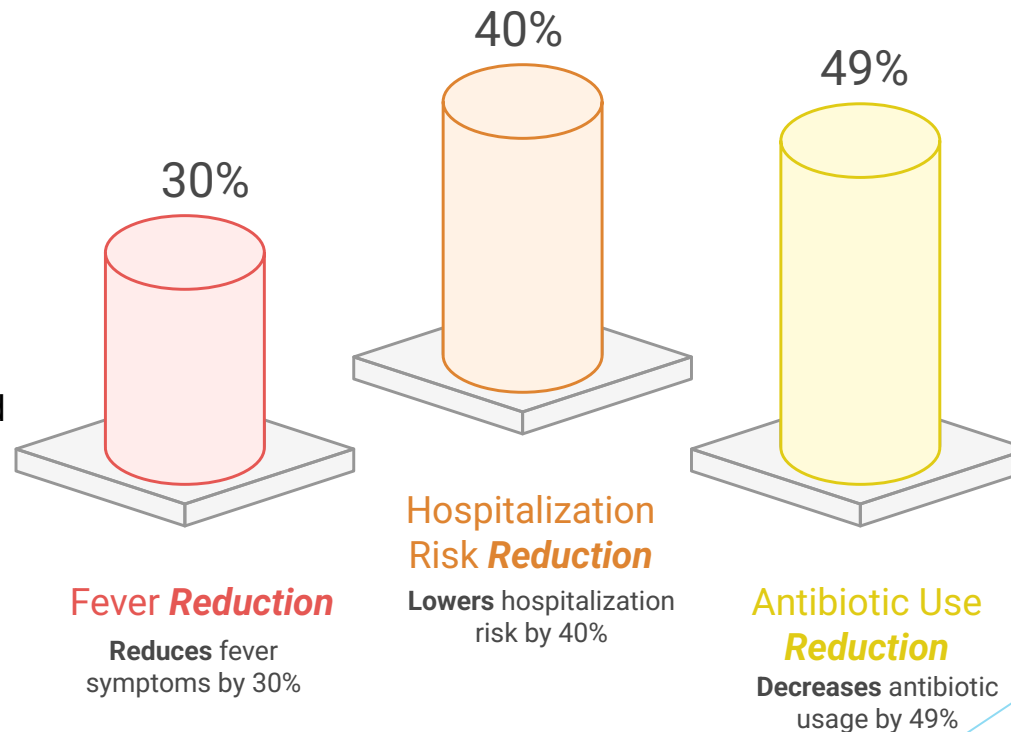

*“..... is FDA-approved for the treatment and prevention of acute, uncomplicated influenza A and B in individuals aged 2 weeks and older.....”*

## Impact of Oseltamivir 75mg on Health Outcomes

### Clinical Benefits

- Influenza Treatment:
  - A meta-analysis involving over 100,000 patients demonstrated that oseltamivir significantly reduced the duration of fever and influenza-like symptoms. It also decreased hospitalization rates and the need for antibiotics.
- Hand-Foot-and-Mouth Disease (HFMD):
  - In pediatric patients with HFMD, oseltamivir as adjunctive therapy improved recovery times without increasing adverse reactions.

**REVALON  
BIOCARE**  
Revival to Resilience

*“..... is an amino acid supplement used to improve cardiovascular health, erectile dysfunction, and enhance exercise performance.....”*

### Clinical Benefits

- **Erectile Dysfunction:**
  - A multicenter, double-blind, randomized, placebo-controlled trial demonstrated that high-dose L-Arginine supplementation improved erectile function in men with vasculogenic erectile dysfunction.
- **Blood Pressure:**
  - L-Arginine supplementation has been associated with reductions in blood pressure, particularly in individuals with hypertension.

### Impact of L Arginine 5gm with Zinc Folic Acid on Health Outcomes

**REVALON  
BIOCARE**  
Revival to Resilience

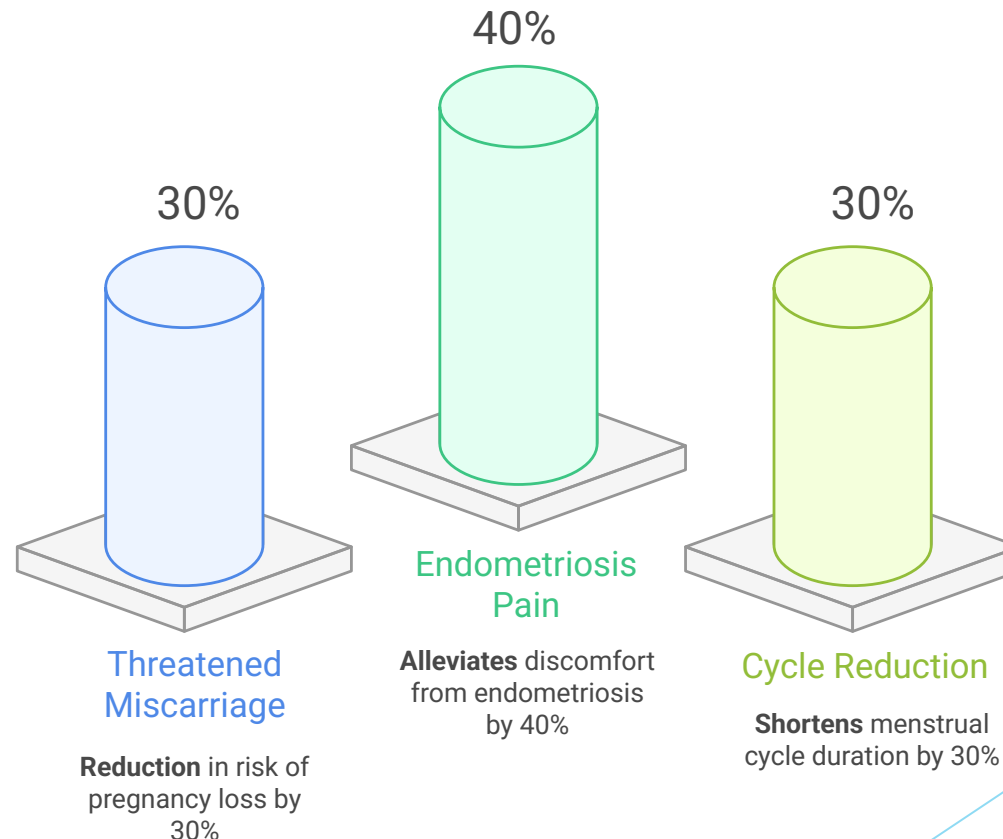

*“..... is used in various gynecological conditions, including endometriosis, threatened miscarriage, and luteal phase support in infertility.....”*

### Clinical Benefits

- Endometriosis:
  - Studies have shown that dydrogesterone significantly reduces dysmenorrhea and pelvic pain in women with endometriosis
- Threatened Miscarriage
  - A systematic review indicated that dydrogesterone reduces the odds of miscarriage in women experiencing threatened abortion.
